

Hip Ridge gives any verges on the roof the professional finish, masking any unsightly cutting, this can also save time and hence money, it also gives added protection against any leaks that could occur.

These are professionally hand-crafted and come in 2 Ft (600 mm) lengths and in two widths (wide "which is best suited for main roofs" and narrow "which is best suited for smaller builds such as porches etc").

Product Summary

- *Gives the professional finish to verges**
- *Water tight**
- *Quicker than cutting exact verges**
